

# KX-DT635 & KX-DT680

## NEW GENERATION OF DIGITAL PROPRIETARY TELEPHONES

### Key Features

- Slim Design
- Large Colour LCD Display with intuitive operation (DT680)
- 48/24 Flexible Functions Keys
- Built-in Electronic Hook Switch
- Speakerphone with full duplex

### Intuitive Operation

Making all information visible at a glance is never easy. By using the highly intuitive colour LCD screen, every detail is visible with clear indication and context-based icons providing excellent guidance and control.

### Customization

The KX-DT680 allows an image file to be imported to the display which can include company branding or useful information, guiding user operation or simply to reinforce company messaging throughout the office.

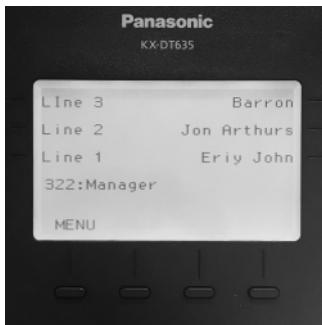

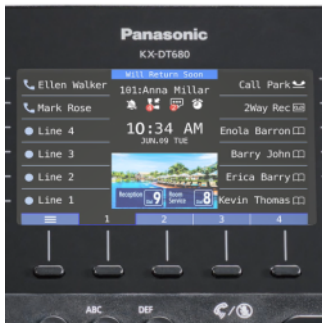

### Self Labeling

In order to make paper labels not needed anymore, in both models self labeling keys are implemented either 24 (DT635) or 48 (DT680)

Panasonic introduces the KX-DT6 digital telephones to provide an exciting new experience for customers using traditional analogue or digital devices on legacy telephone wiring without the cost or time required for re-cabling.

The new design and features of telephones offer a perfect opportunity to improve the telephony experience without a major infrastructure change. The telephones also allow a better user experience for mixing with or migrating to IP telephony in the future with a common design and interface.

The telephones slim design provides a new customer experience and the smaller footprint compared with previous digital models allows for a more comfortable installation location in the workplace.
